

VOXELGRID WANTS YOU

COMPANY

VOXELGRID is a fast-growing Start Up situated in Munich. With our patented Hard- and Software System we can scan existing buildings from inside and outside with incomparable speed and with our high-end technology we can offer the digitalization of large building stock at lowest possible prices worldwide.

TO SUPPORT OUR TEAM, WE ARE CURRENTLY LOOKING FOR:

FRONT-END DEVELOPER (m/f/d)

JOB DESCRIPTION

We are looking for an experienced JavaScript developer who is proficient with React/Vuejs. Your primary focus will be on developing user interface components and implementing them following well-known modern day web application workflows (such as redux, vuex, vue-router). You will ensure that these components and the overall application are robust and easy to maintain. You will coordinate with the rest of the team working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and quality product is important. An eye for design will be appreciated.

RESPONSIBILITIES

- ▼ Developing new user-facing features using React/Vue
- ▼ Building reusable components and front-end libraries for future use
- ▼ Translating designs and wireframes into high quality code
- ▼ Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- ▼ Create re-usable components and use them in different products in the organization
- ▼ Collaborate with the backend engineers in using the backend APIs using axios

SKILLS

- ▼ Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model
- ▼ Thorough understanding of React or Vue and its core principles
- ▼ Familiarity with newer specifications of ES6
- ▼ Familiarity with RESTful APIs
- ▼ Ability to read API documentation and consume them using Axios
Knowledge of modern authorization mechanisms, such as JSON Web Token
- ▼ Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- ▼ Familiarity with code versioning tools such as Git
- ▼ Ability to use CSS frameworks such as Bulma to create frontend that is responsive.
