

VOXELGRID WANTS YOU

VOXELGRID is a fast-growing Start Up situated in Munich. With our patented Hard- and Software System we can scan existing buildings from inside and outside with incomparable speed and with our high-end technology we can offer the digitalization of large building stock at lowest possible prices worldwide.

Project Manager Architecture

Your Profile

You have the following skills and competencies:

- Enjoy working with CAD software, especially AutoCAD and REVIT
- High reliability and sense of responsibility
- Pleasure in coordinating our colleagues in Germany and in Croatia

your qualifications

- Degree in architecture or a comparable qualification
- Experience in AutoCAD and REVIT
- German: at least B1; English: at least B2; additional language skills in Croatian would be excellent

Your tasks

- Coordination and communication with our architecture colleagues currently in Germany and Croatia
- Checking and correcting the CAD plans created by these colleagues
- Instruction and training of new colleagues
- Support in project tracking and optimization in coordination with the department management
- Supporting sales in coordinating architectural and technical issues with our customers and potential customers

What VOXELGRID offers

- an attractive salary package according to your qualifications and commitment
- Full flexibility: a nice office environment in a central inner-city location in Munich or a freelance employment with very attractive success fees when you want to stay in your home country (that must be inside the European Union).
- A warm and dynamic team that is enthusiastic about what it is doing and is happy to welcome you into its midst
- Architects who are looking for a part-time job are also very welcome with us

We are looking forward to your application!
